The Next meeting of the Wellesley Amateur Radio Society will be held at the Middlesex Amateur Radio Club, Waban Library, 1608 Beacon St., Waban - 8 P.M., Friday - May 9th. Speaker will be Katashi Nose, KH6IJ. This will be a joint meeting of both clubs.

AREC/RACES - do you belong? If so, please notify Pres. John Porter, K1PRB, 235-8276. This information plus the completed questionaire which may be enclosed is needed to renew our ARRL affiliation.

Club Net - 1st session, May 7th, 8P.M., 28.7 MHz. This will not be a traffic net, but club net for bull session about club, ham radio, what have you. Please come up on frequency.

Think about June elections; new officer time again - also, are you ready for Field Day?

If you are concerned about the net - first one there will call for club members. If we have very few one frequencym it will be informal round table. If we have a lot of people show up (and we hope there are a lot) one of the officers will serve as net control station- either John, K1PRB or myself. However we hope to supply a list of club members and their calls, and it should promote discussion on some problems the club faces. It should also make all of us aware of the others interest. One topic- what about some ideas for activities for next year??? Would members care to have a club Banquet? Only our club or with another club or clubs? How many members belong to the new Emergency net operated by WBZ? How many are interested? What can the club do to get and keep new members? These may be subjects discussed with one other person at a meeting, but of interest to all if the club is to continue. So no doubt as time goes on we'll find the session's bringing up a variety of topics.

SOOOOOOOOOOO - MAY 7th 8PM 28.7 Mhz club net.

May 9th 8PM Joint meeting with middlesex club,

those without 10 meter antenna, throw up a dipole and join the ones with antenna at club net time. See everyone at the club meeting May 9th. This will be our only meeting in May.

Jim, W1EWN
